Therapeutic Communities
(WFTC)

HONORABLE KYRIAKOS MITSOTAKIS

Prime Minister
Government of Greece

Dear sir:

Please allow me to express our concern, on behalf of the Federation of Therapeutic Communities for Asia (FTCA), about the recent dissolution of the KETHEA voluntary Board in favor of a government board.

We are alarmed and saddened by this development as we at the FTCA have always considered KETHEA as a role model organization that manifests the principles of a democratic healing community.

The FTCA is learning how to pattern its organizations based on the model KETHEA exudes as a non-government institution. Over the past years, Assistant Director Phaedon Kaloterakis has been generous in contributing his efforts in helping our federation achieve this integrity. It would be a great disappointment if KETHEA becomes a government run institution.

Therefore, we respectfully appeal that you reconsider this decision and sustain the previous constitution you have always entrusted KETHEA for many years. I am sure that their track record in helping individuals heal from their drug dependency speaks for itself.

As we remain hopeful regarding our appeal, we thank you for your kind consideration.

Respectfully yours,

MARTIN INFANTE
President, FTCA
